

The easier scheduling app in the market for small business.

THE EASIEST SCHEDULING APP

Our web app will allow managers to visualize and manage work shifts of their employees based on employees' submitted availabilities and desired work hours in a simple and clear way. Allowing for managers to customize the schedule and see their employee worked hours.

CREATE YOUR SCHEDULE

It's really easy to create your team schedule using Cuckoo. You just need to add the times that your employees are available to work, and the app will do the rest for you.

MANY WORKPLACES

Do you have more than one work location? Cuckoo has options to add more workplaces at the same manager account.

MAKE REQUESTS

If your employees need to make any changes in the schedule they can send you request using Cuckoo, it's easy and simple to see and accept the changes.

Our team of designers and developers want to help small business to save time and organize their team in a simple and better way.
